## Examples

### [Psalms 83:18](#)

The screenshot shows the 'Link' dialog box in OneNote. It has a title bar with 'Link' and a close button. The dialog contains two text input fields. The first field is labeled 'Text to display:' and contains the text 'Psalms 83:18'. The second field is labeled 'Address:' and contains the URL 'equipdbible://bible/Psalms83:18'. To the right of the address field are two icons: a globe representing a web link and a folder icon representing a file link.

Here is a document that shows how to format the scriptures. There are no spaces in the scripture name or numbers. Look in the center for Link Format.
